

Pune, India

# Hello!

My name is **AMEYA**. I'm a **UI DESIGNER**.

"Simplicity is the ultimate sophistication - Leonardo Da Vinci"

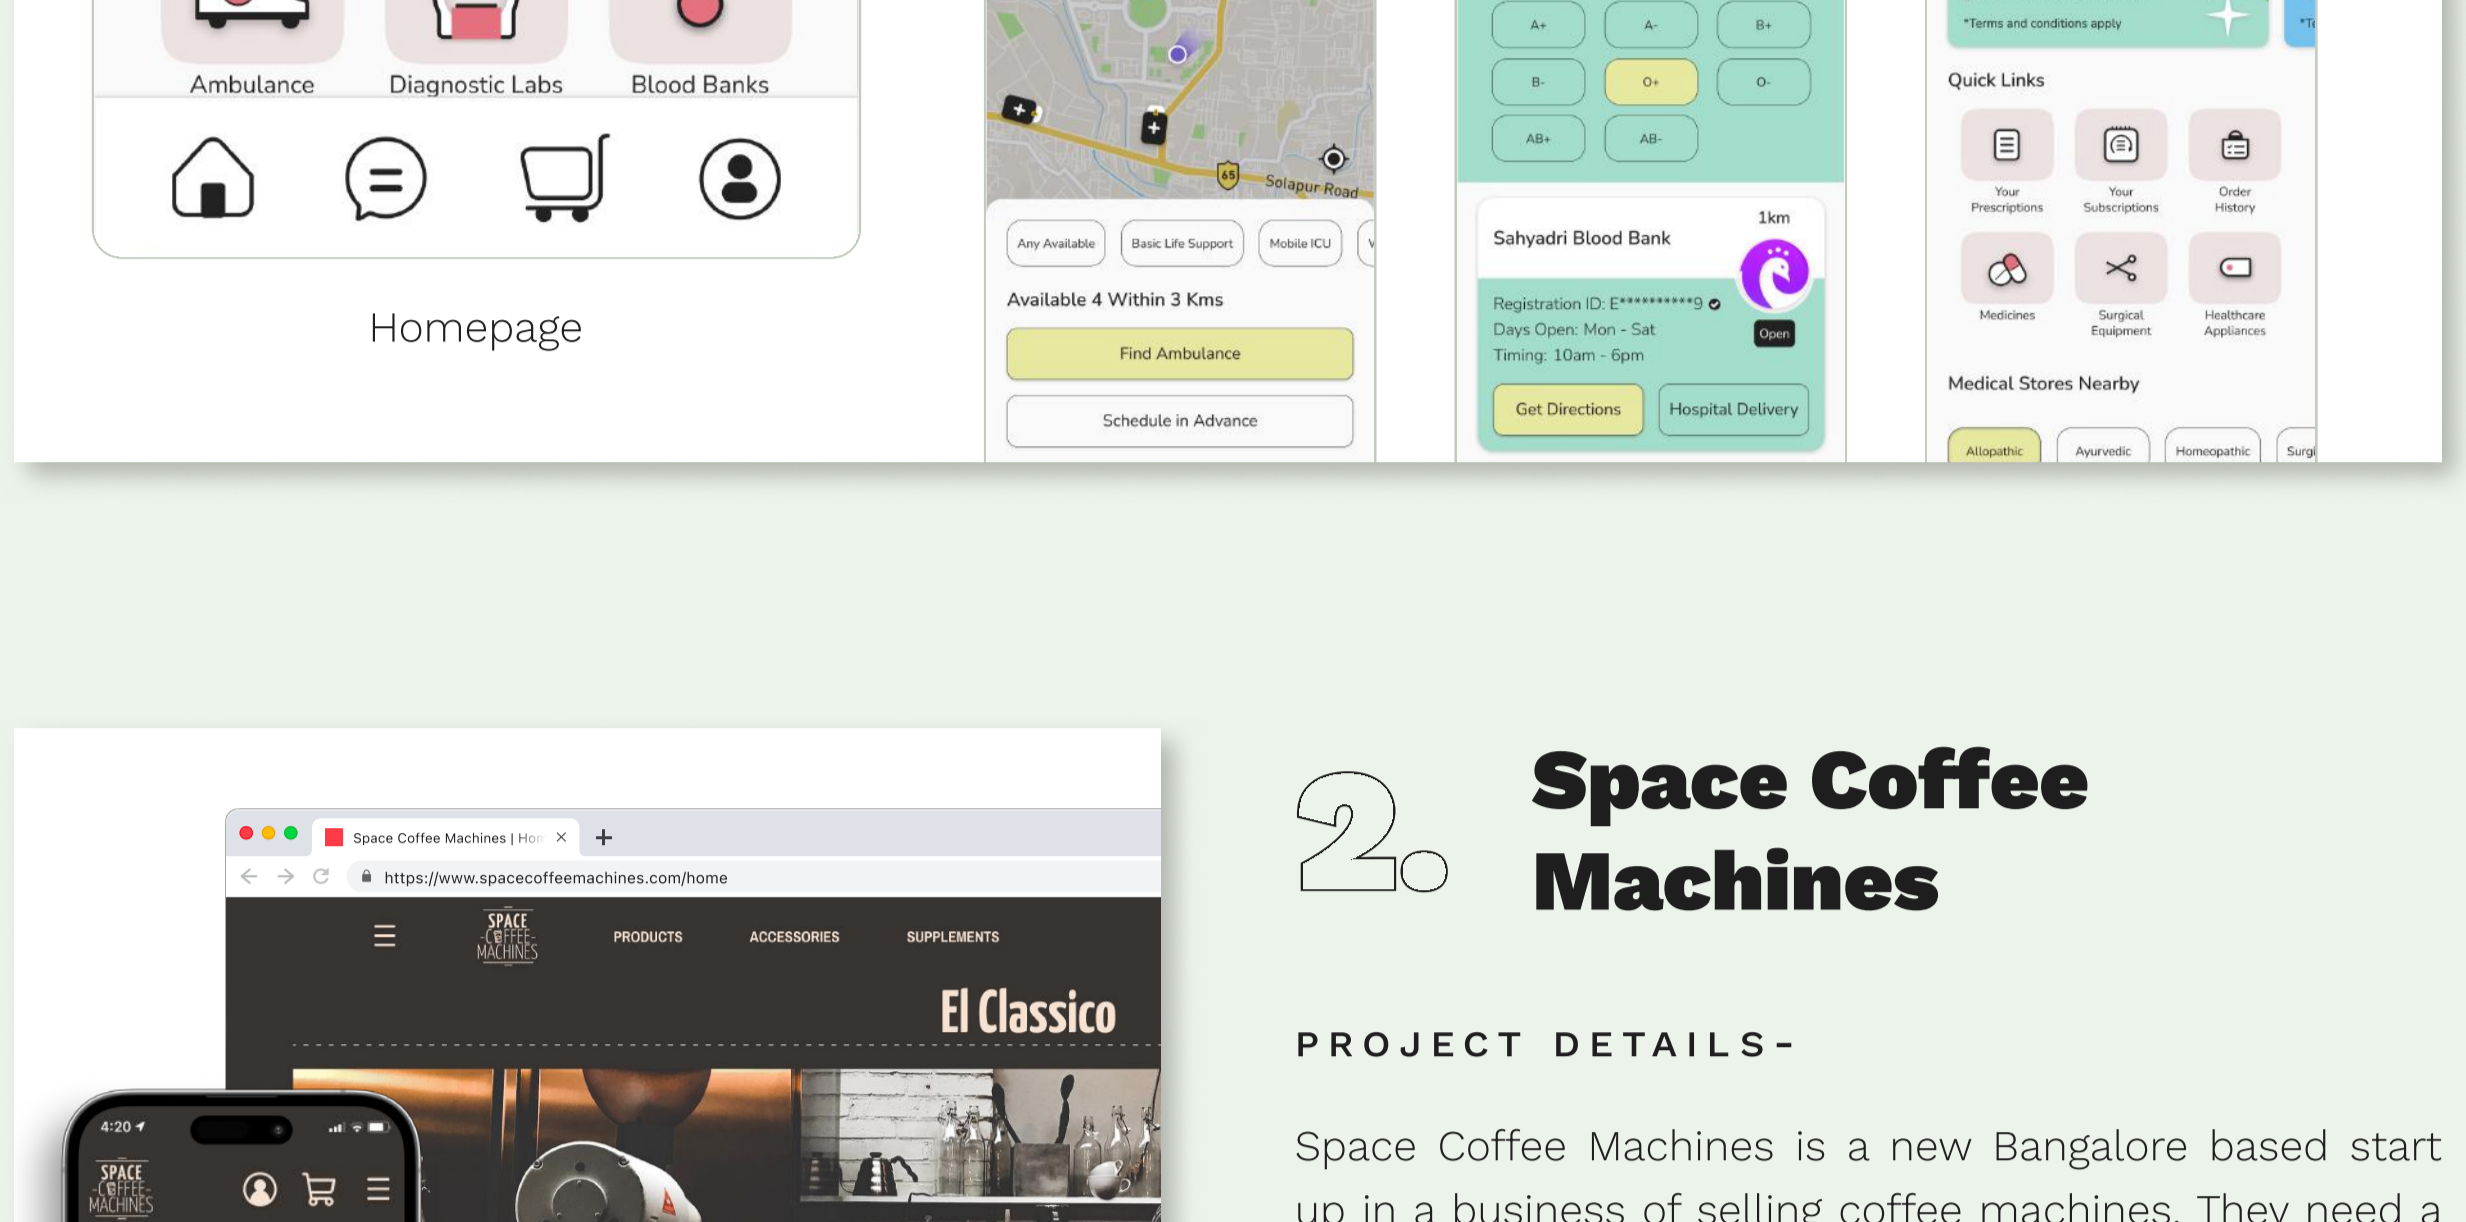

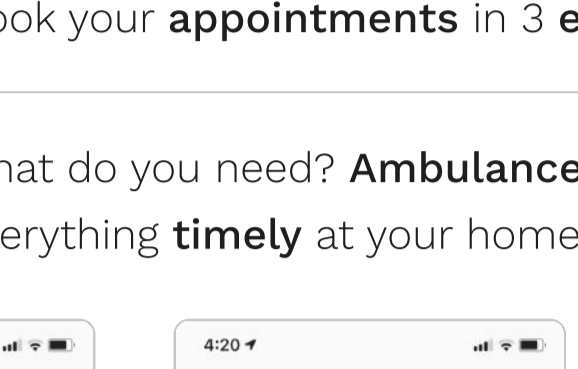

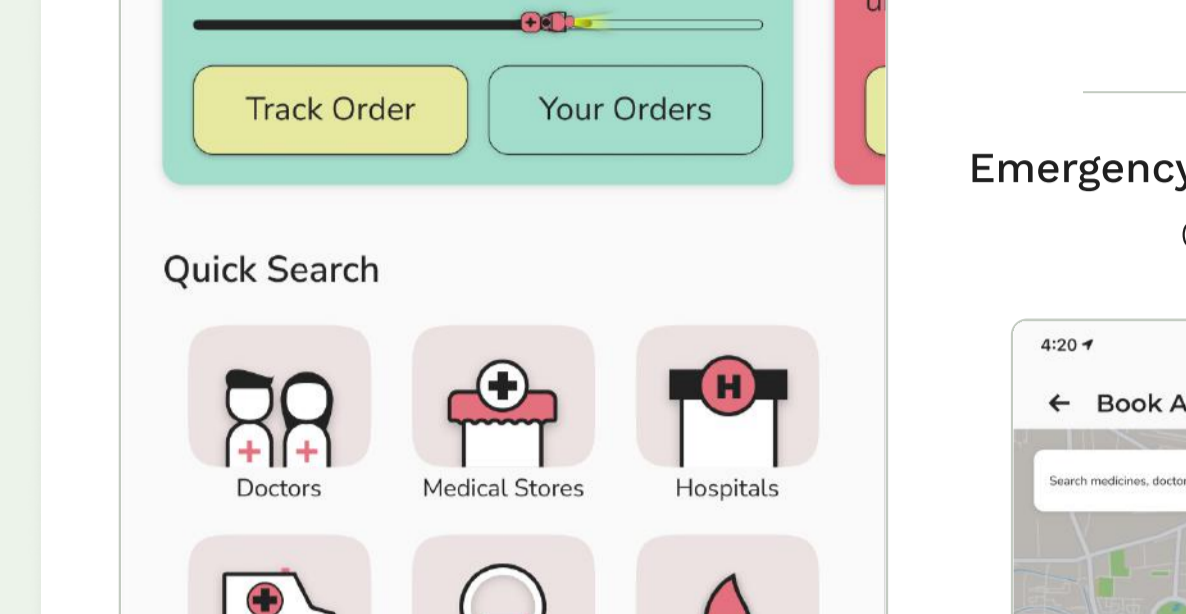

## 1. Health Connect

### PROJECT DETAILS -

Health Connect is a service based on Unified Health Interface (UHI), a new initiative by the Government of India to provide an open digital platform that unifies all the participants of the healthcare industry. Using UHI, Health Connect wants to provide a cohesive healthcare ecosystem for the citizens of India. It aims to cater to all the needs of the people availing of medical services and minimize the difficulties faced.

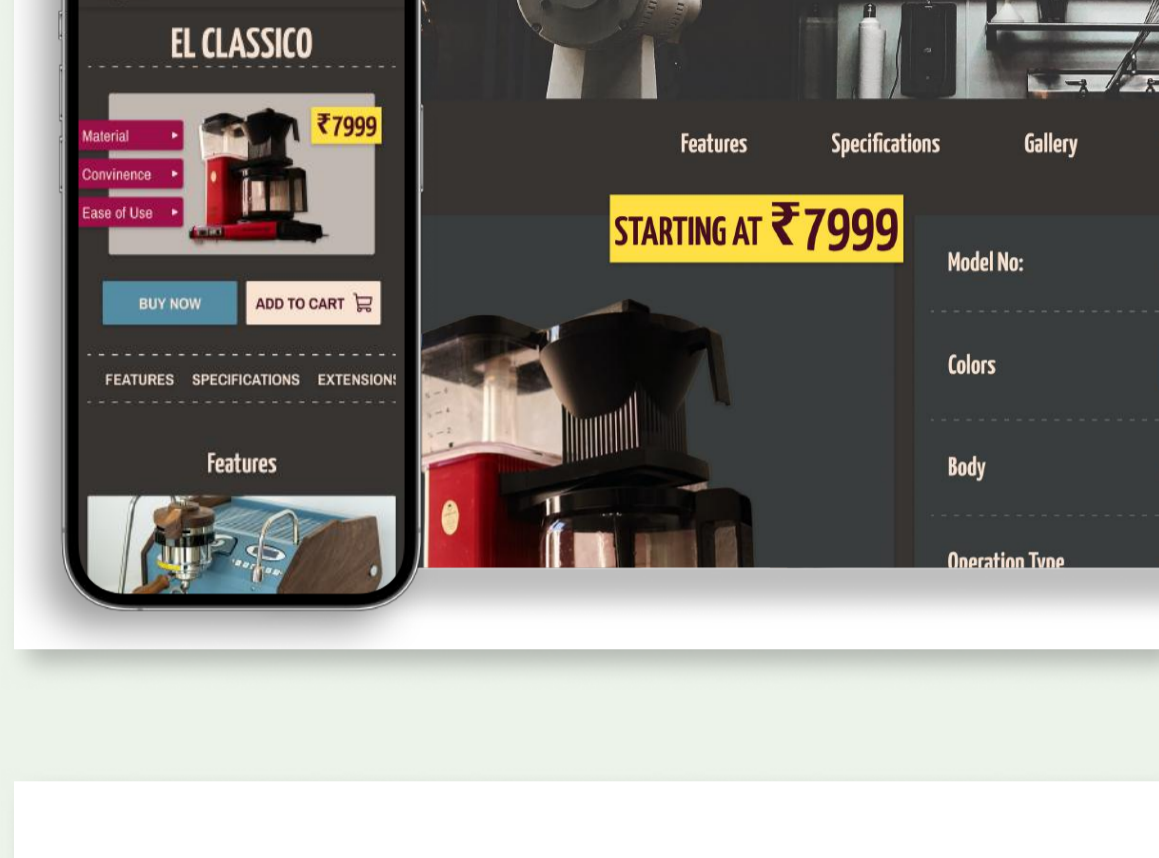

### ROLES -

Project Research | UX Research | Wireframing  
UI Design | Logo Design | Illustrations

Book your appointments in 3 easy steps.

Emergency!? What do you need? Ambulance? O+ Blood? Medicines? Get everything **timely** at your home or at hospital.

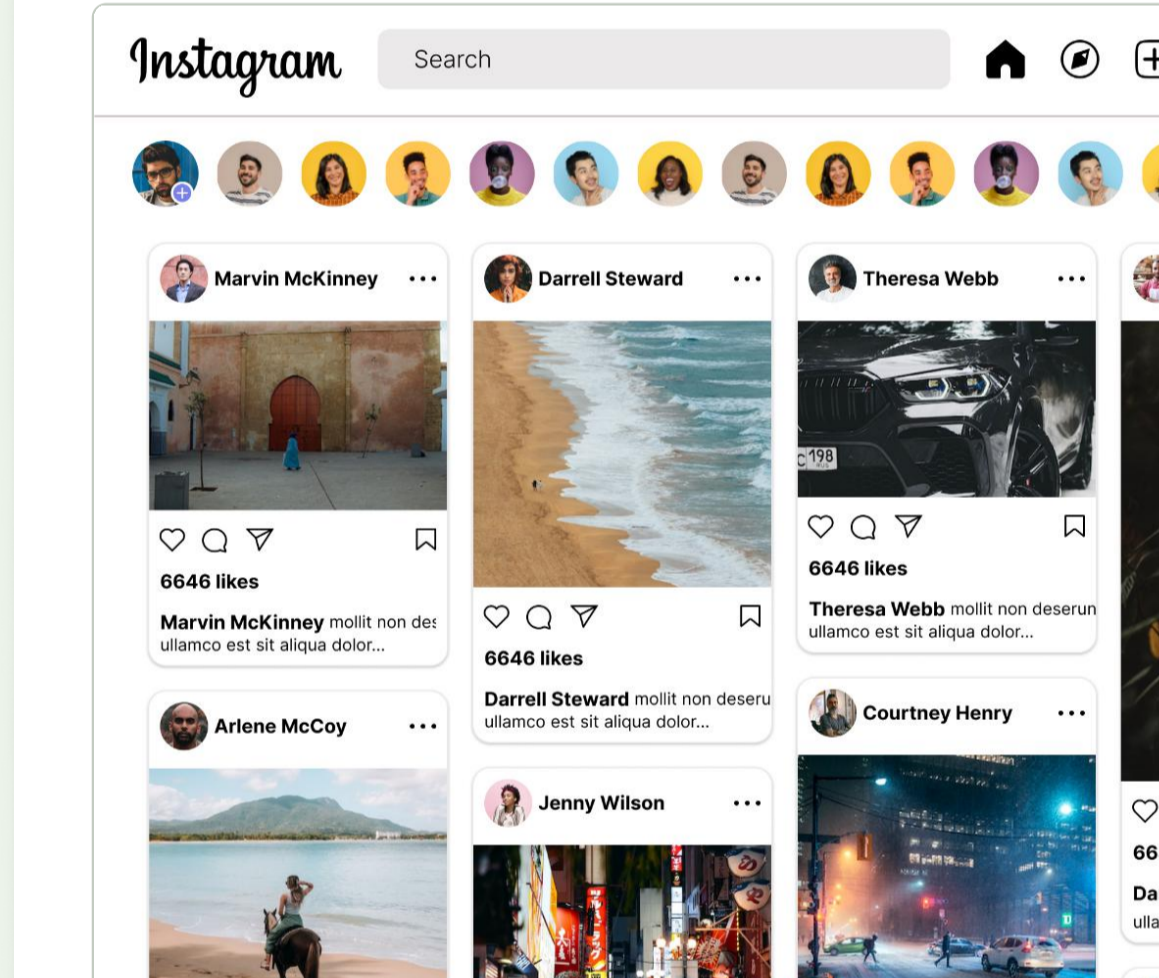

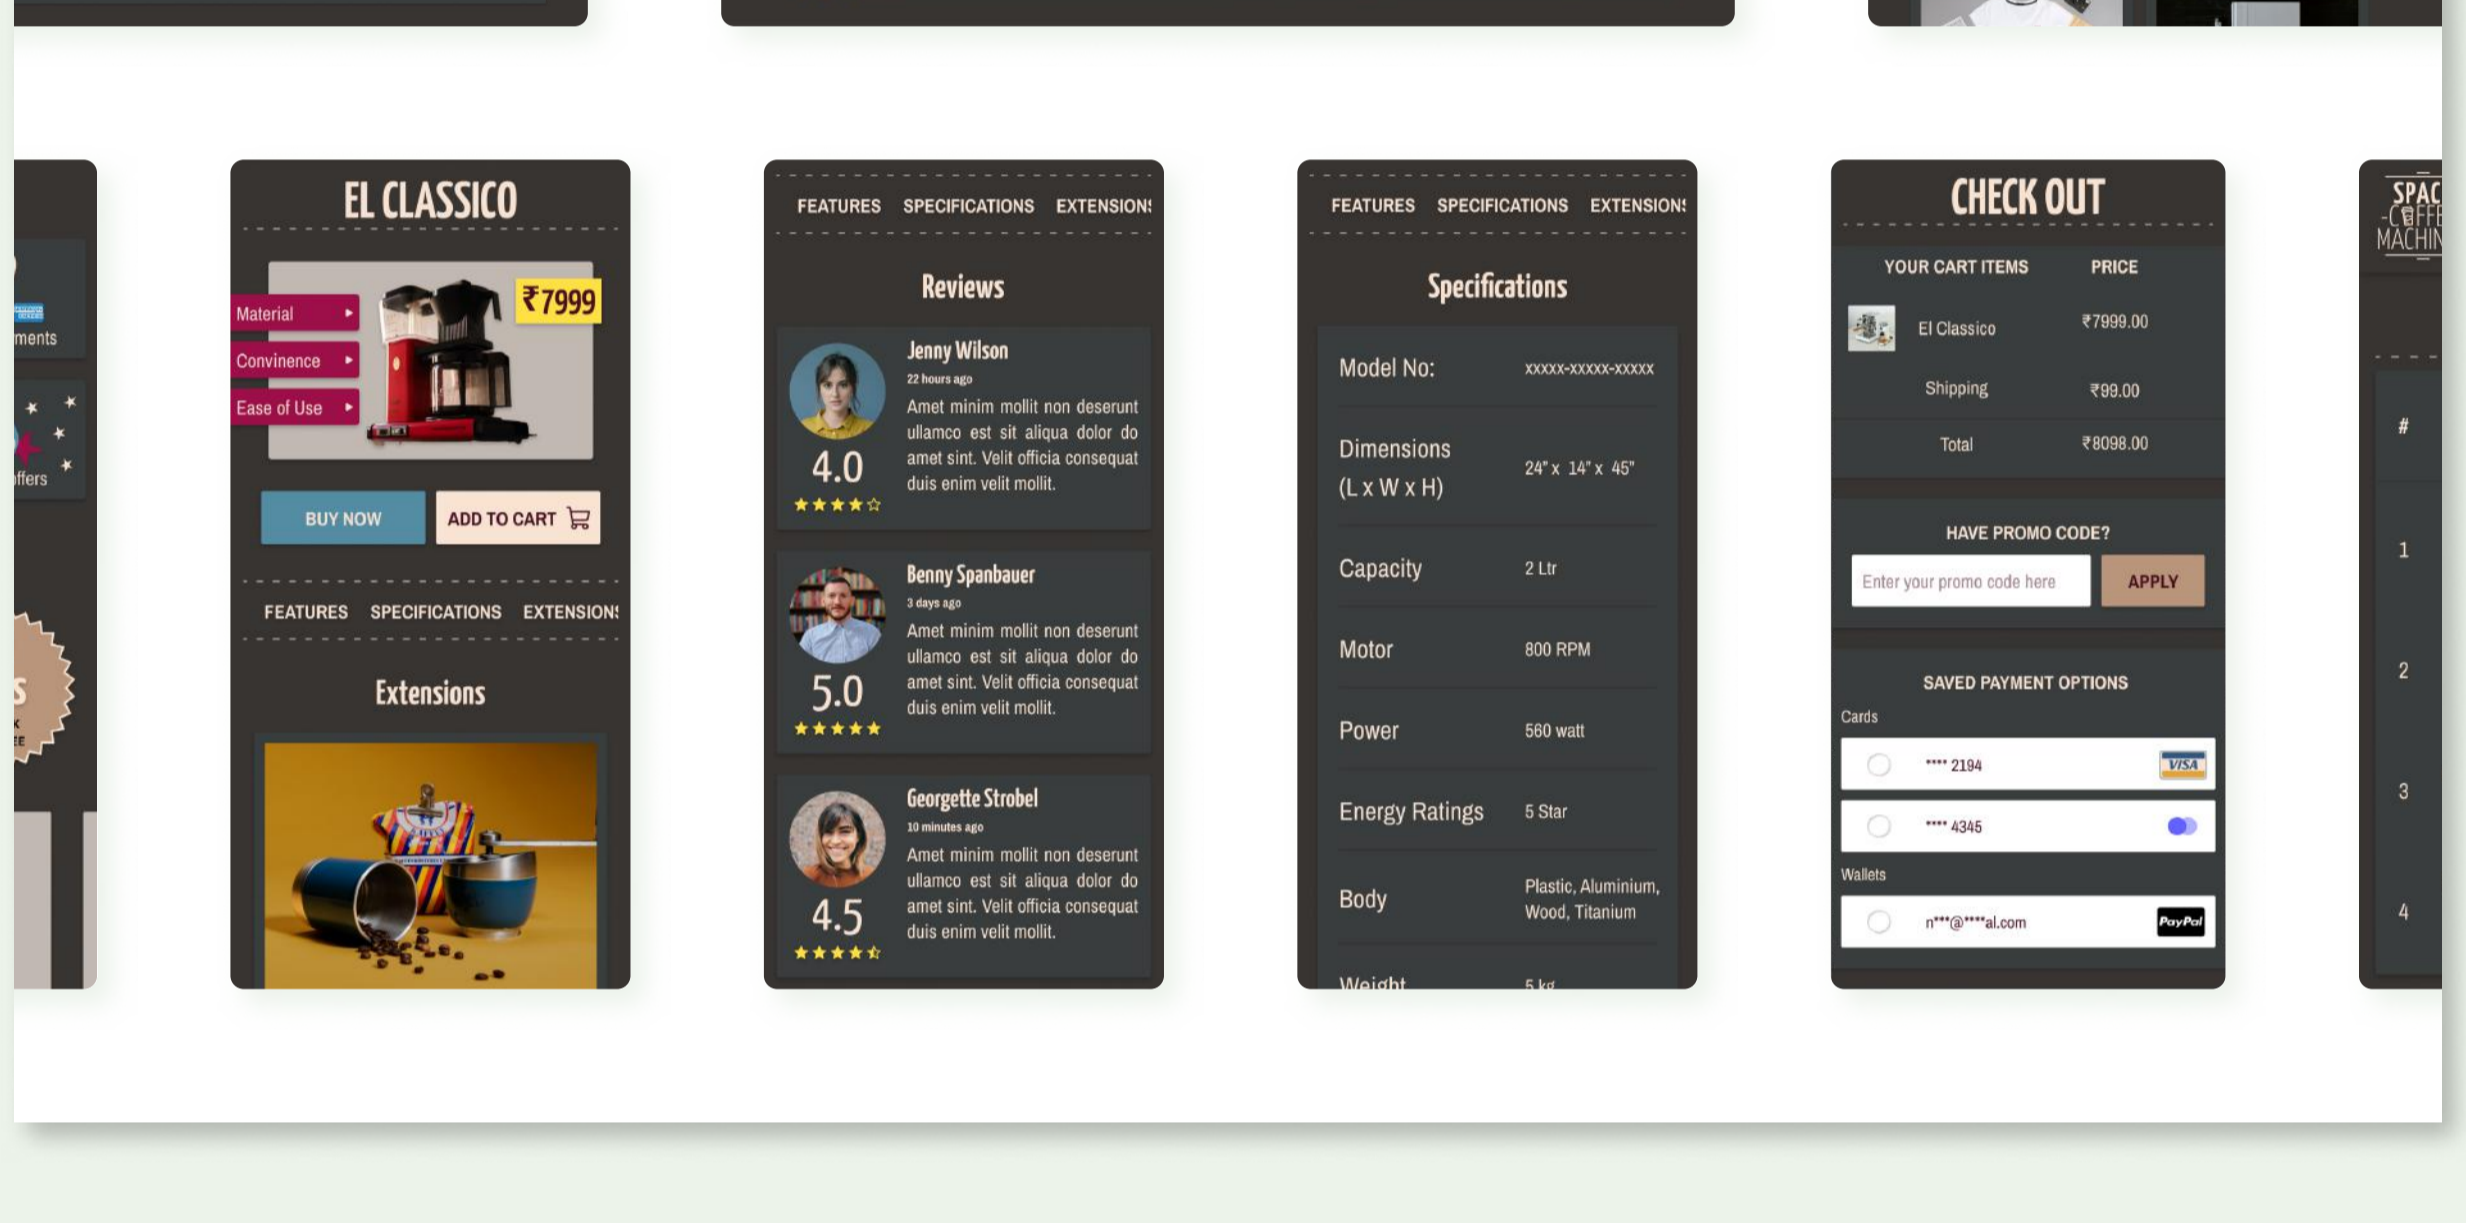

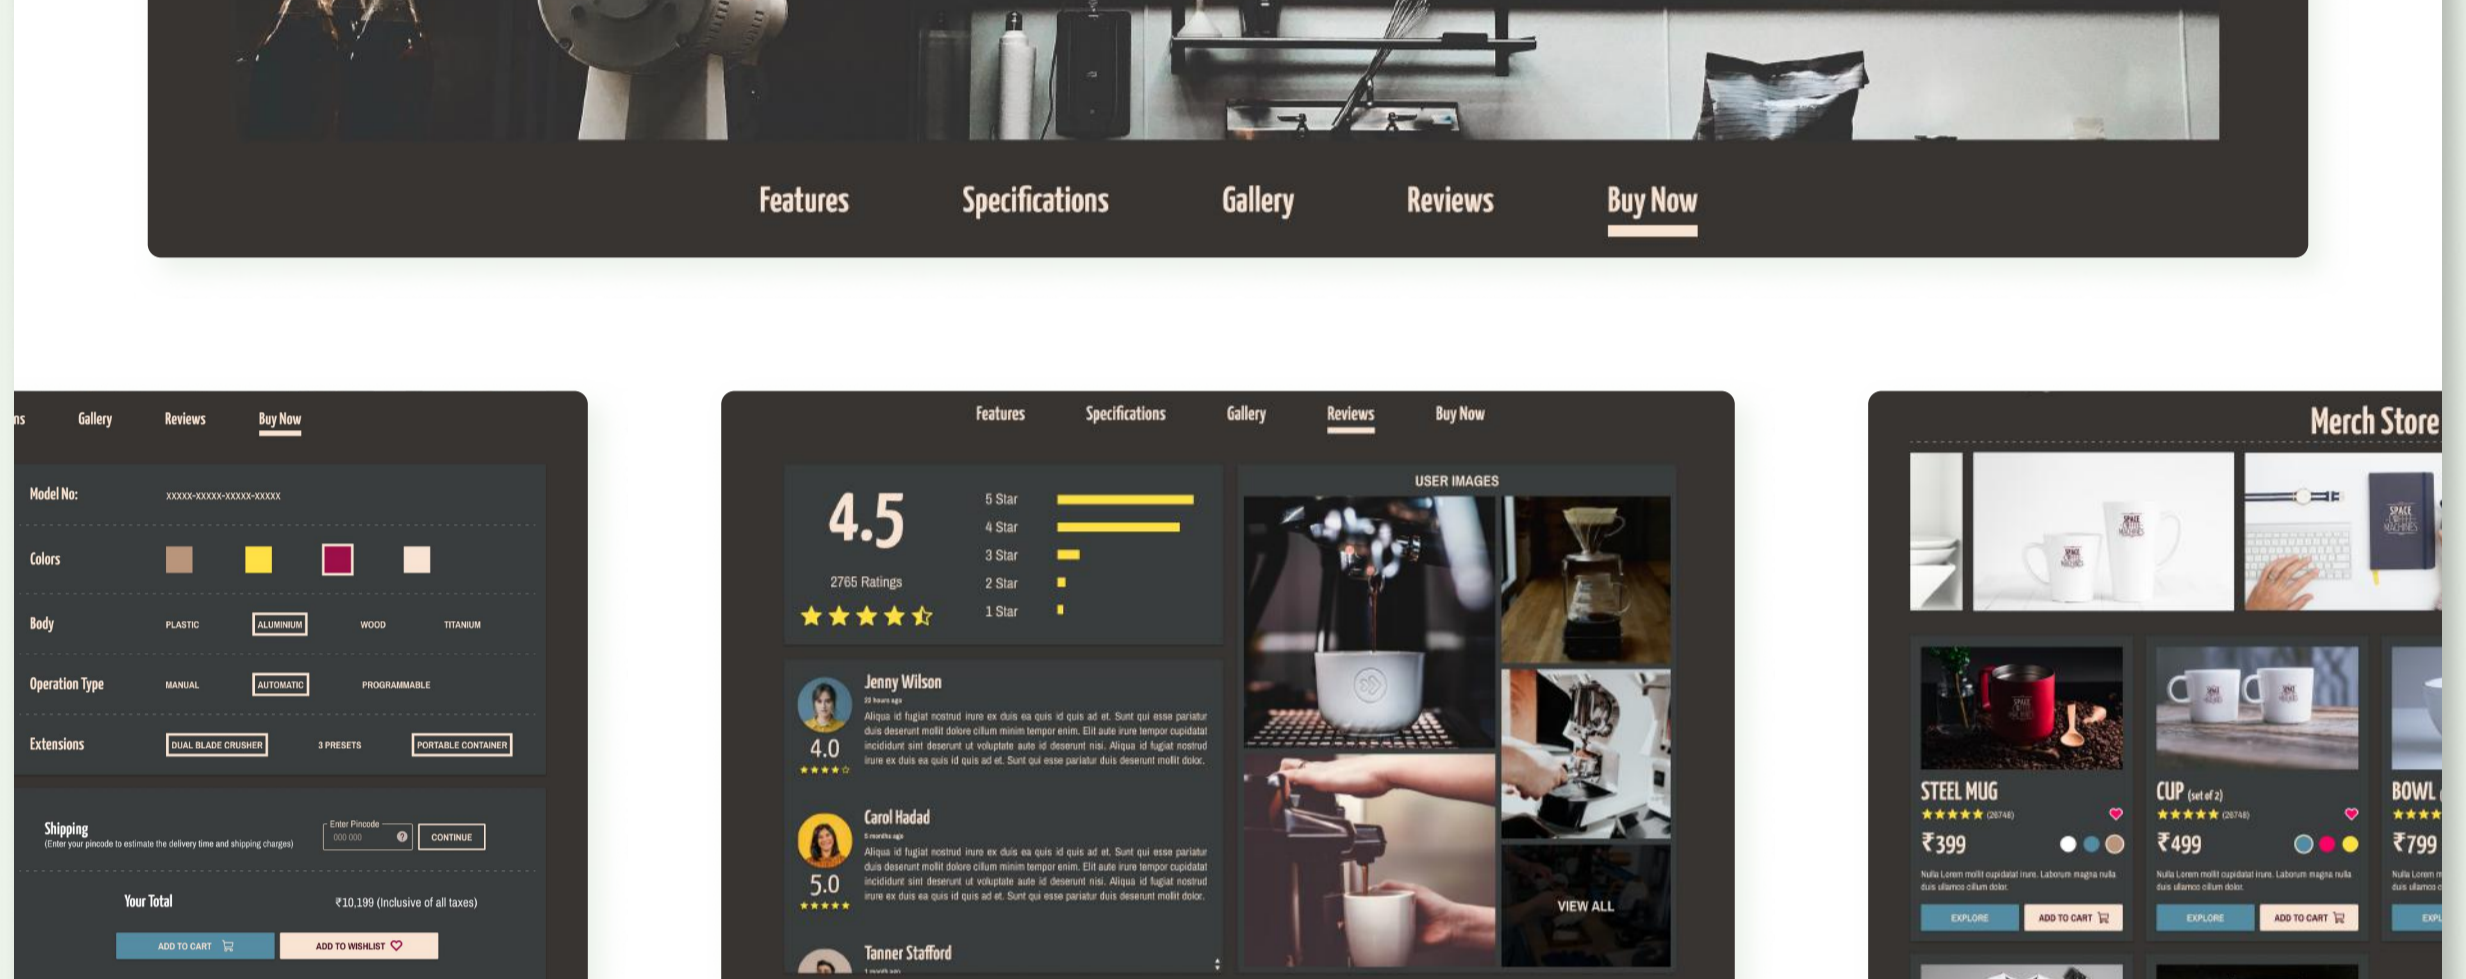

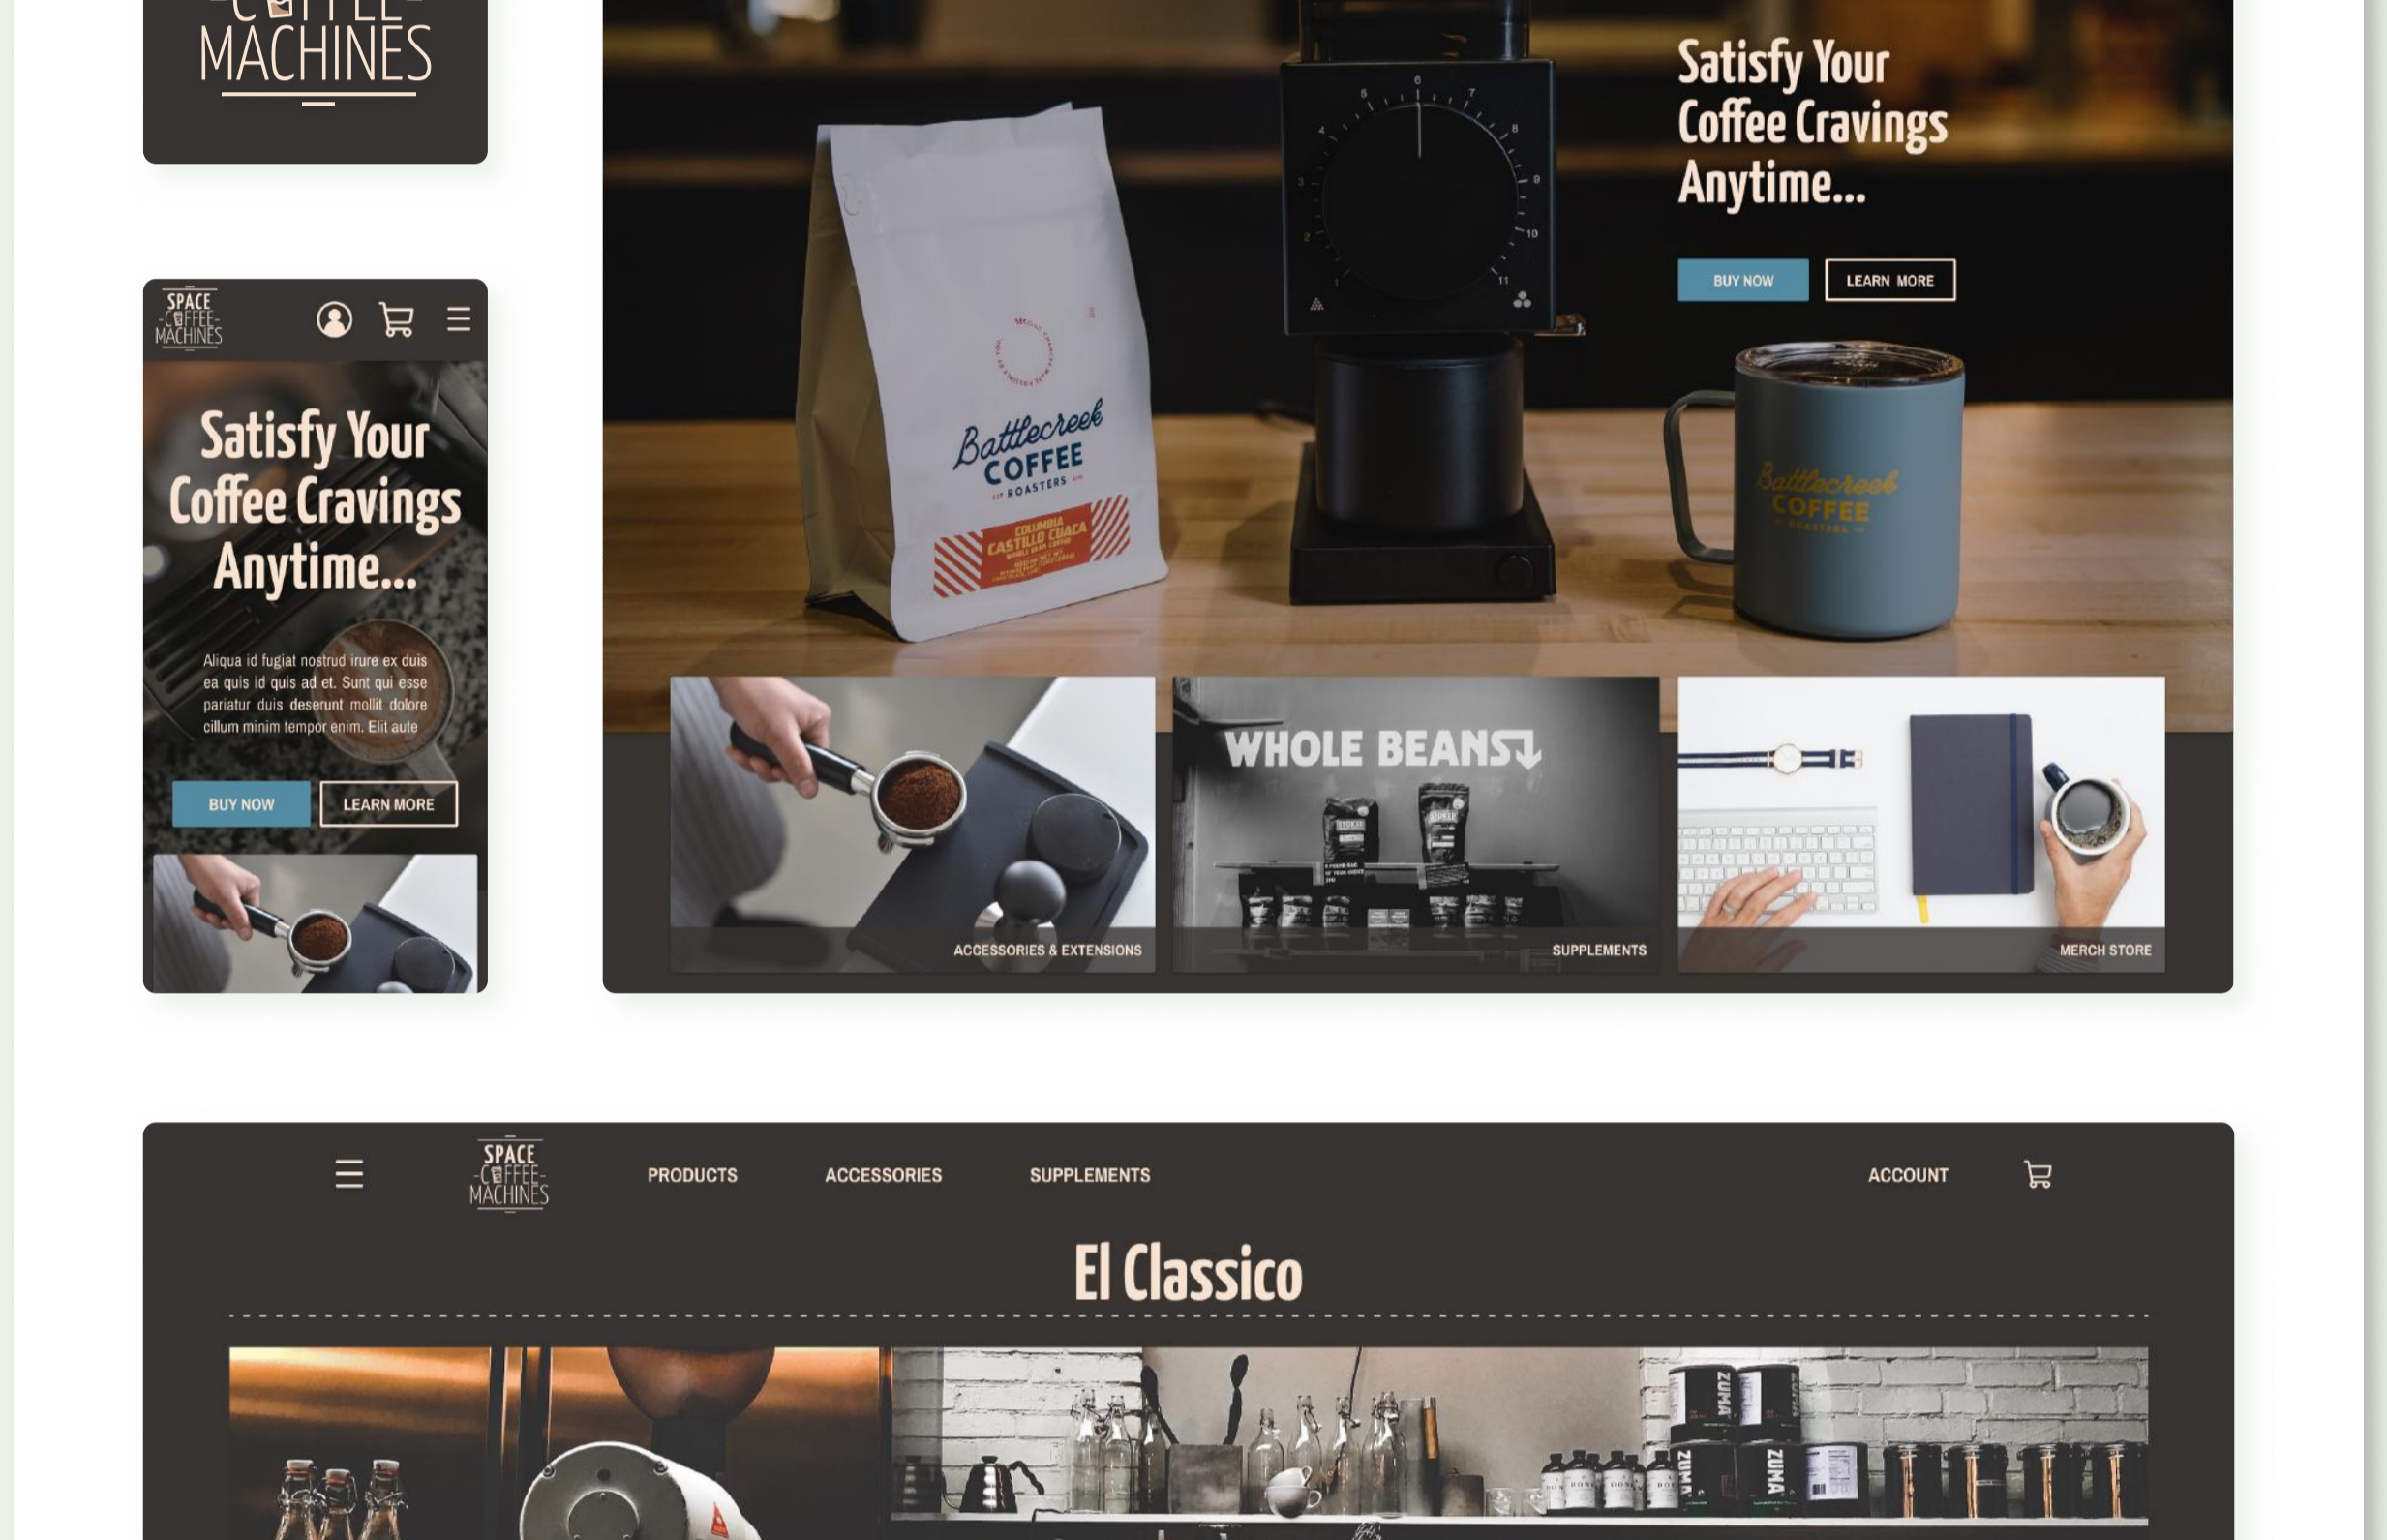

## 2. Space Coffee Machines

### PROJECT DETAILS -

Space Coffee Machines is a new Bangalore based start up in a business of selling coffee machines. They need a complete brand development with a logo and a website for both web and mobile platform.

### ROLES -

Wireframing | UX Design | UI Design | Logo Design

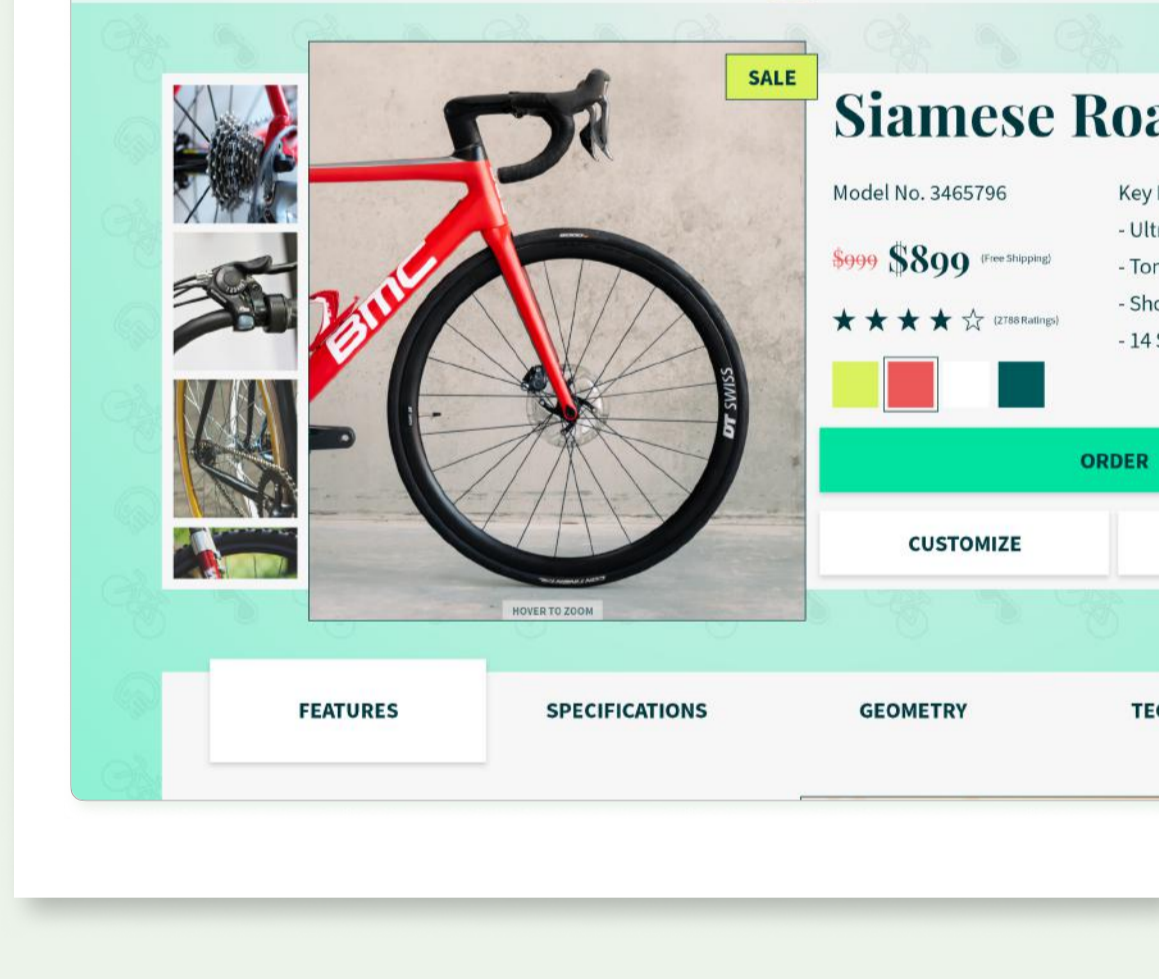

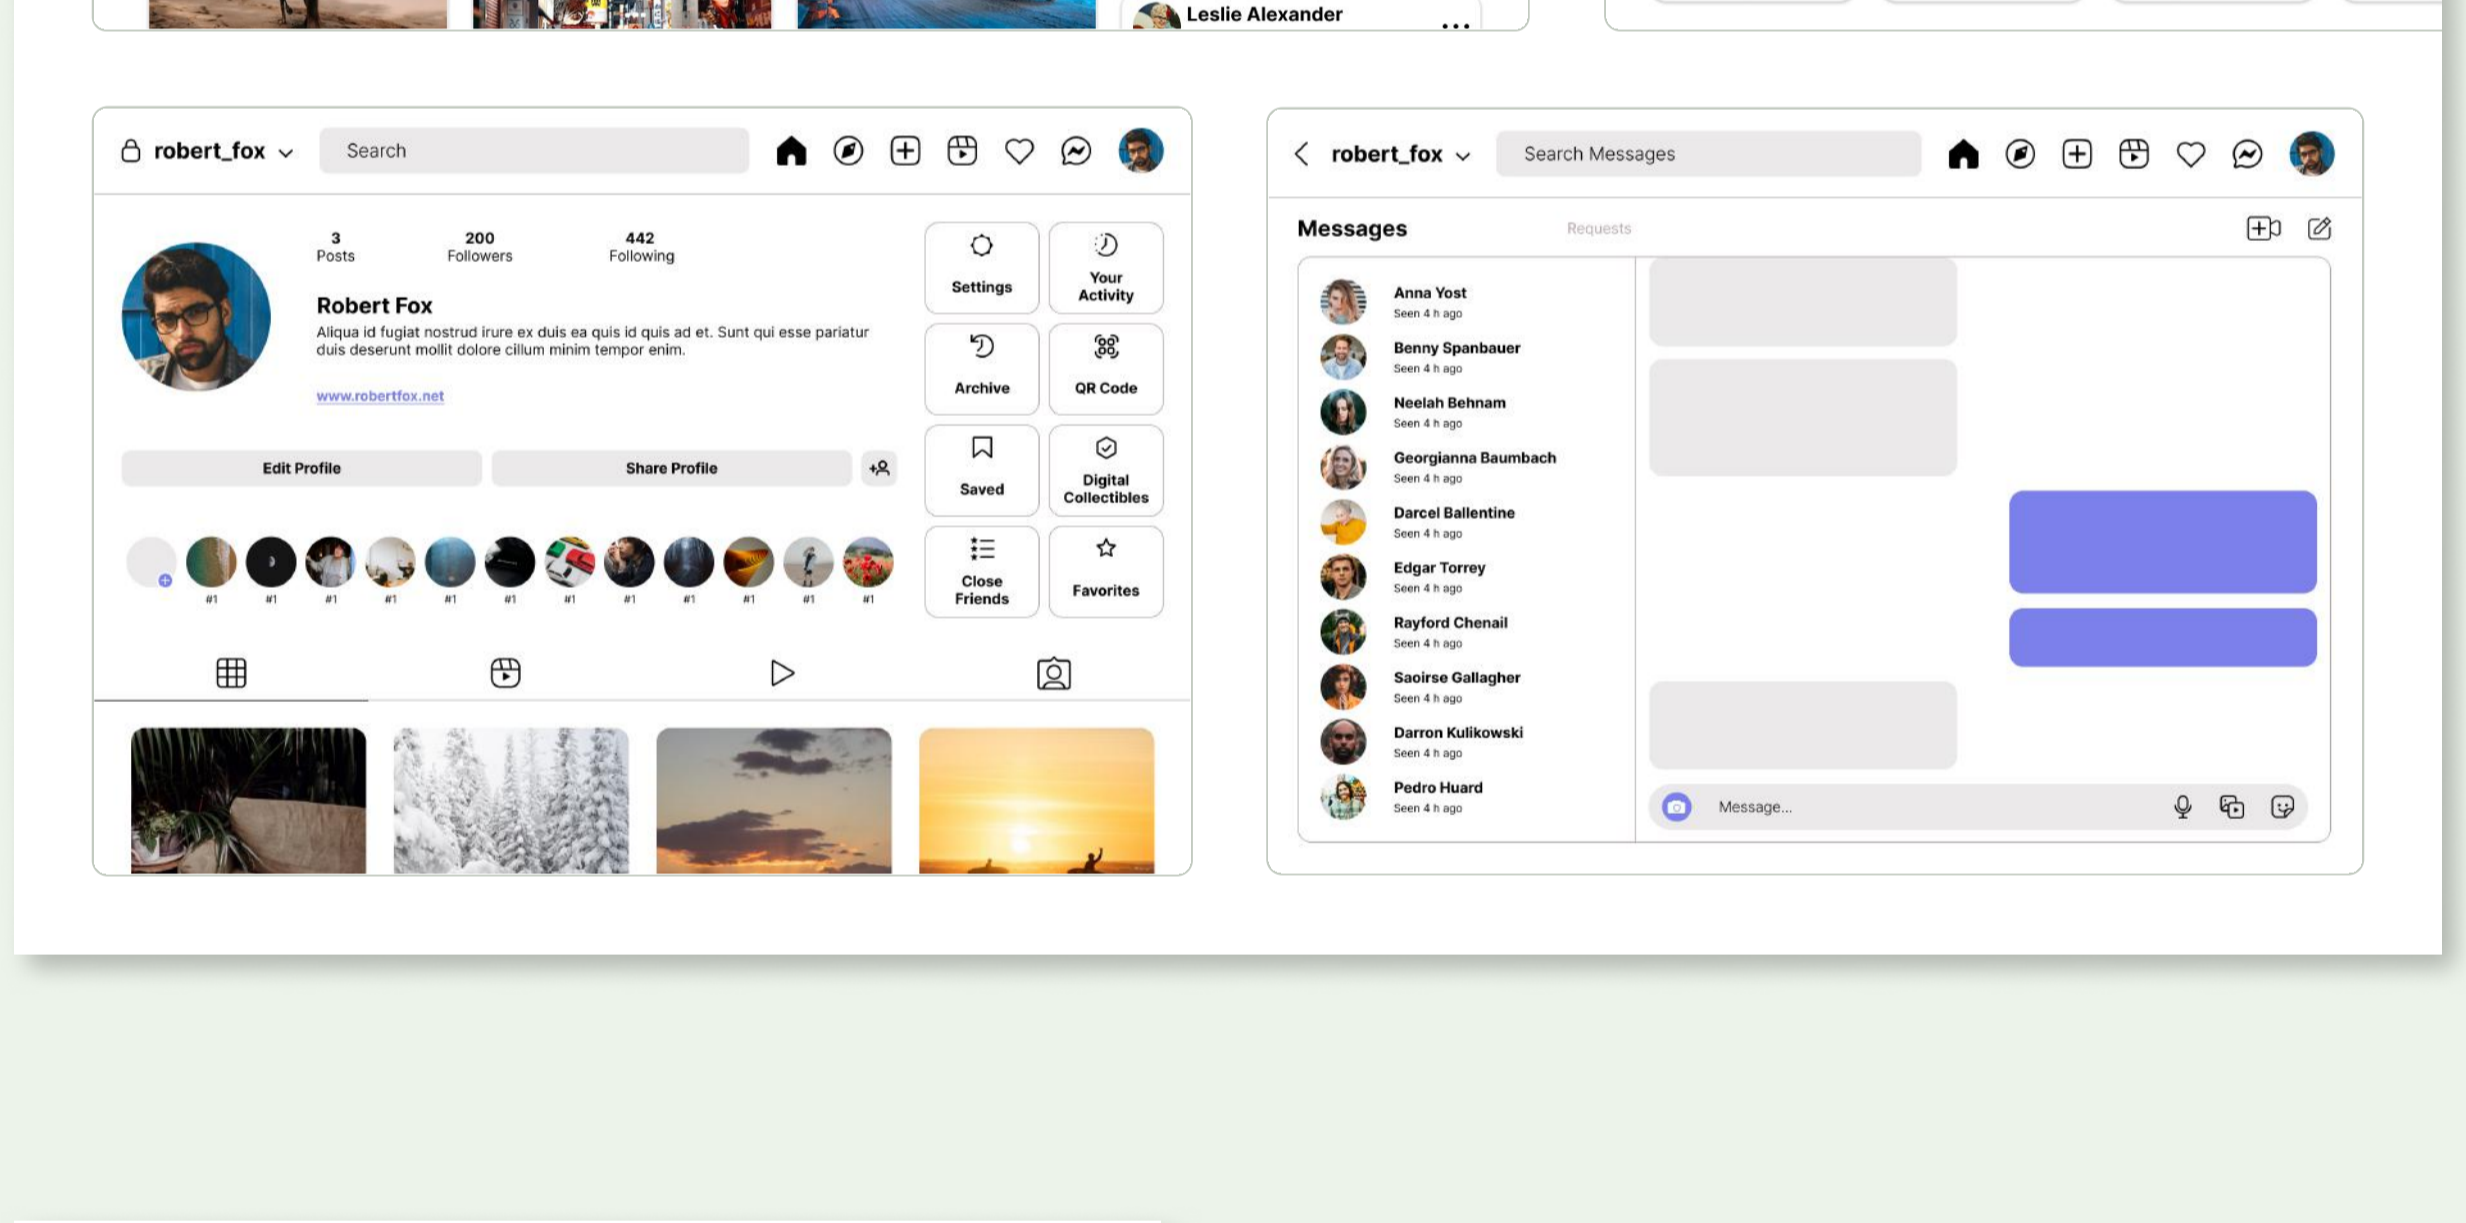

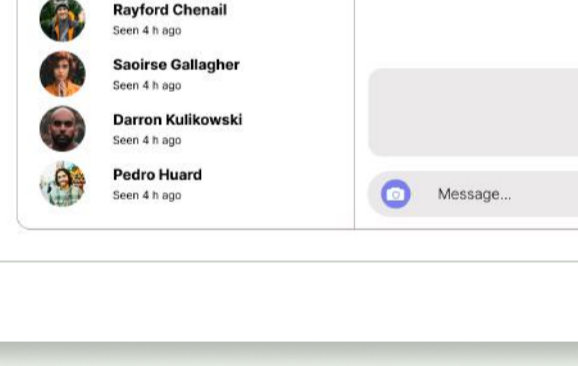

## 3. Instagram for iPad

### PROJECT DETAILS -

The lack of an official native iPad app for Instagram always bothered users. Hence I decided to design my own version of an Instagram app. I tried to follow the official design language of Instagram, while adding my own little essence here and there.

Wireframing | UX Design | UI Design

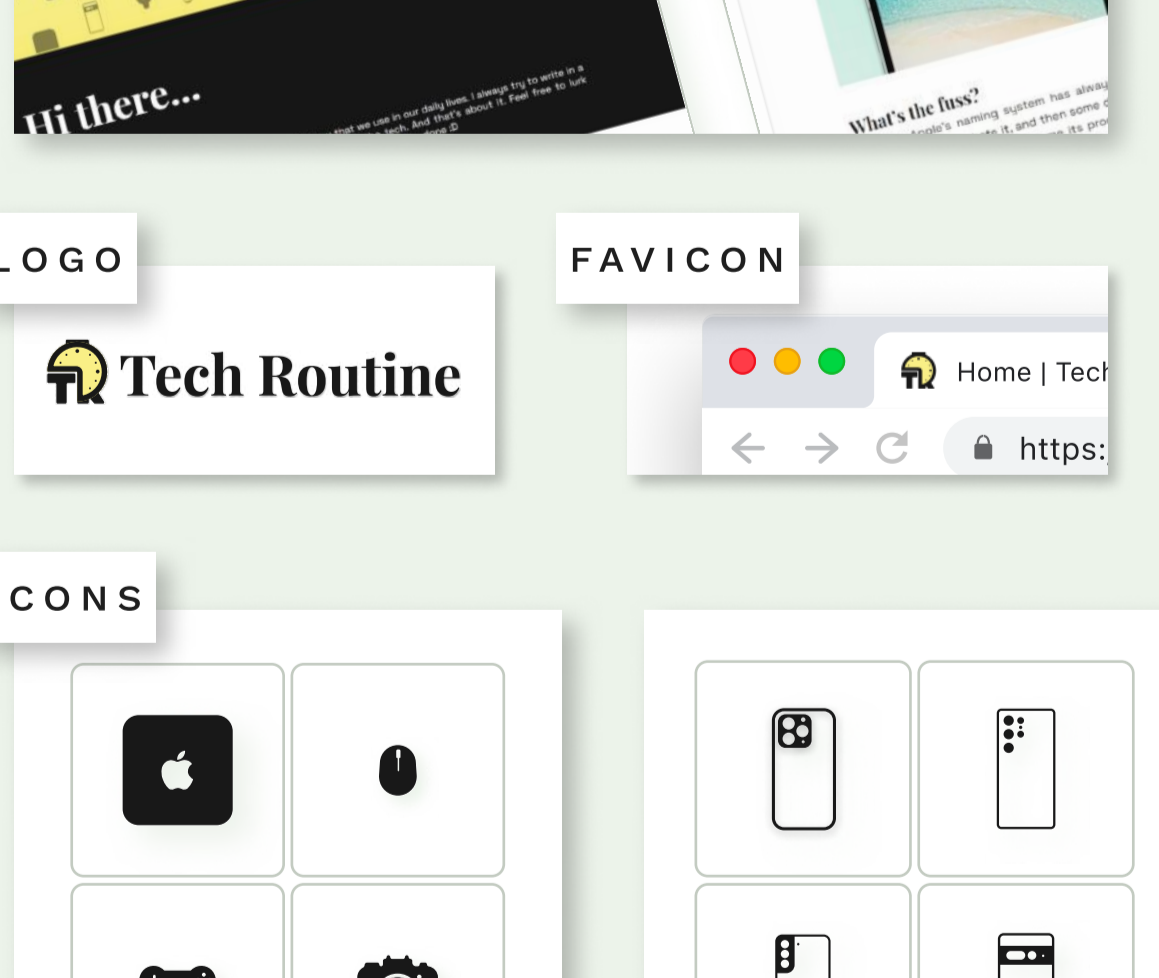

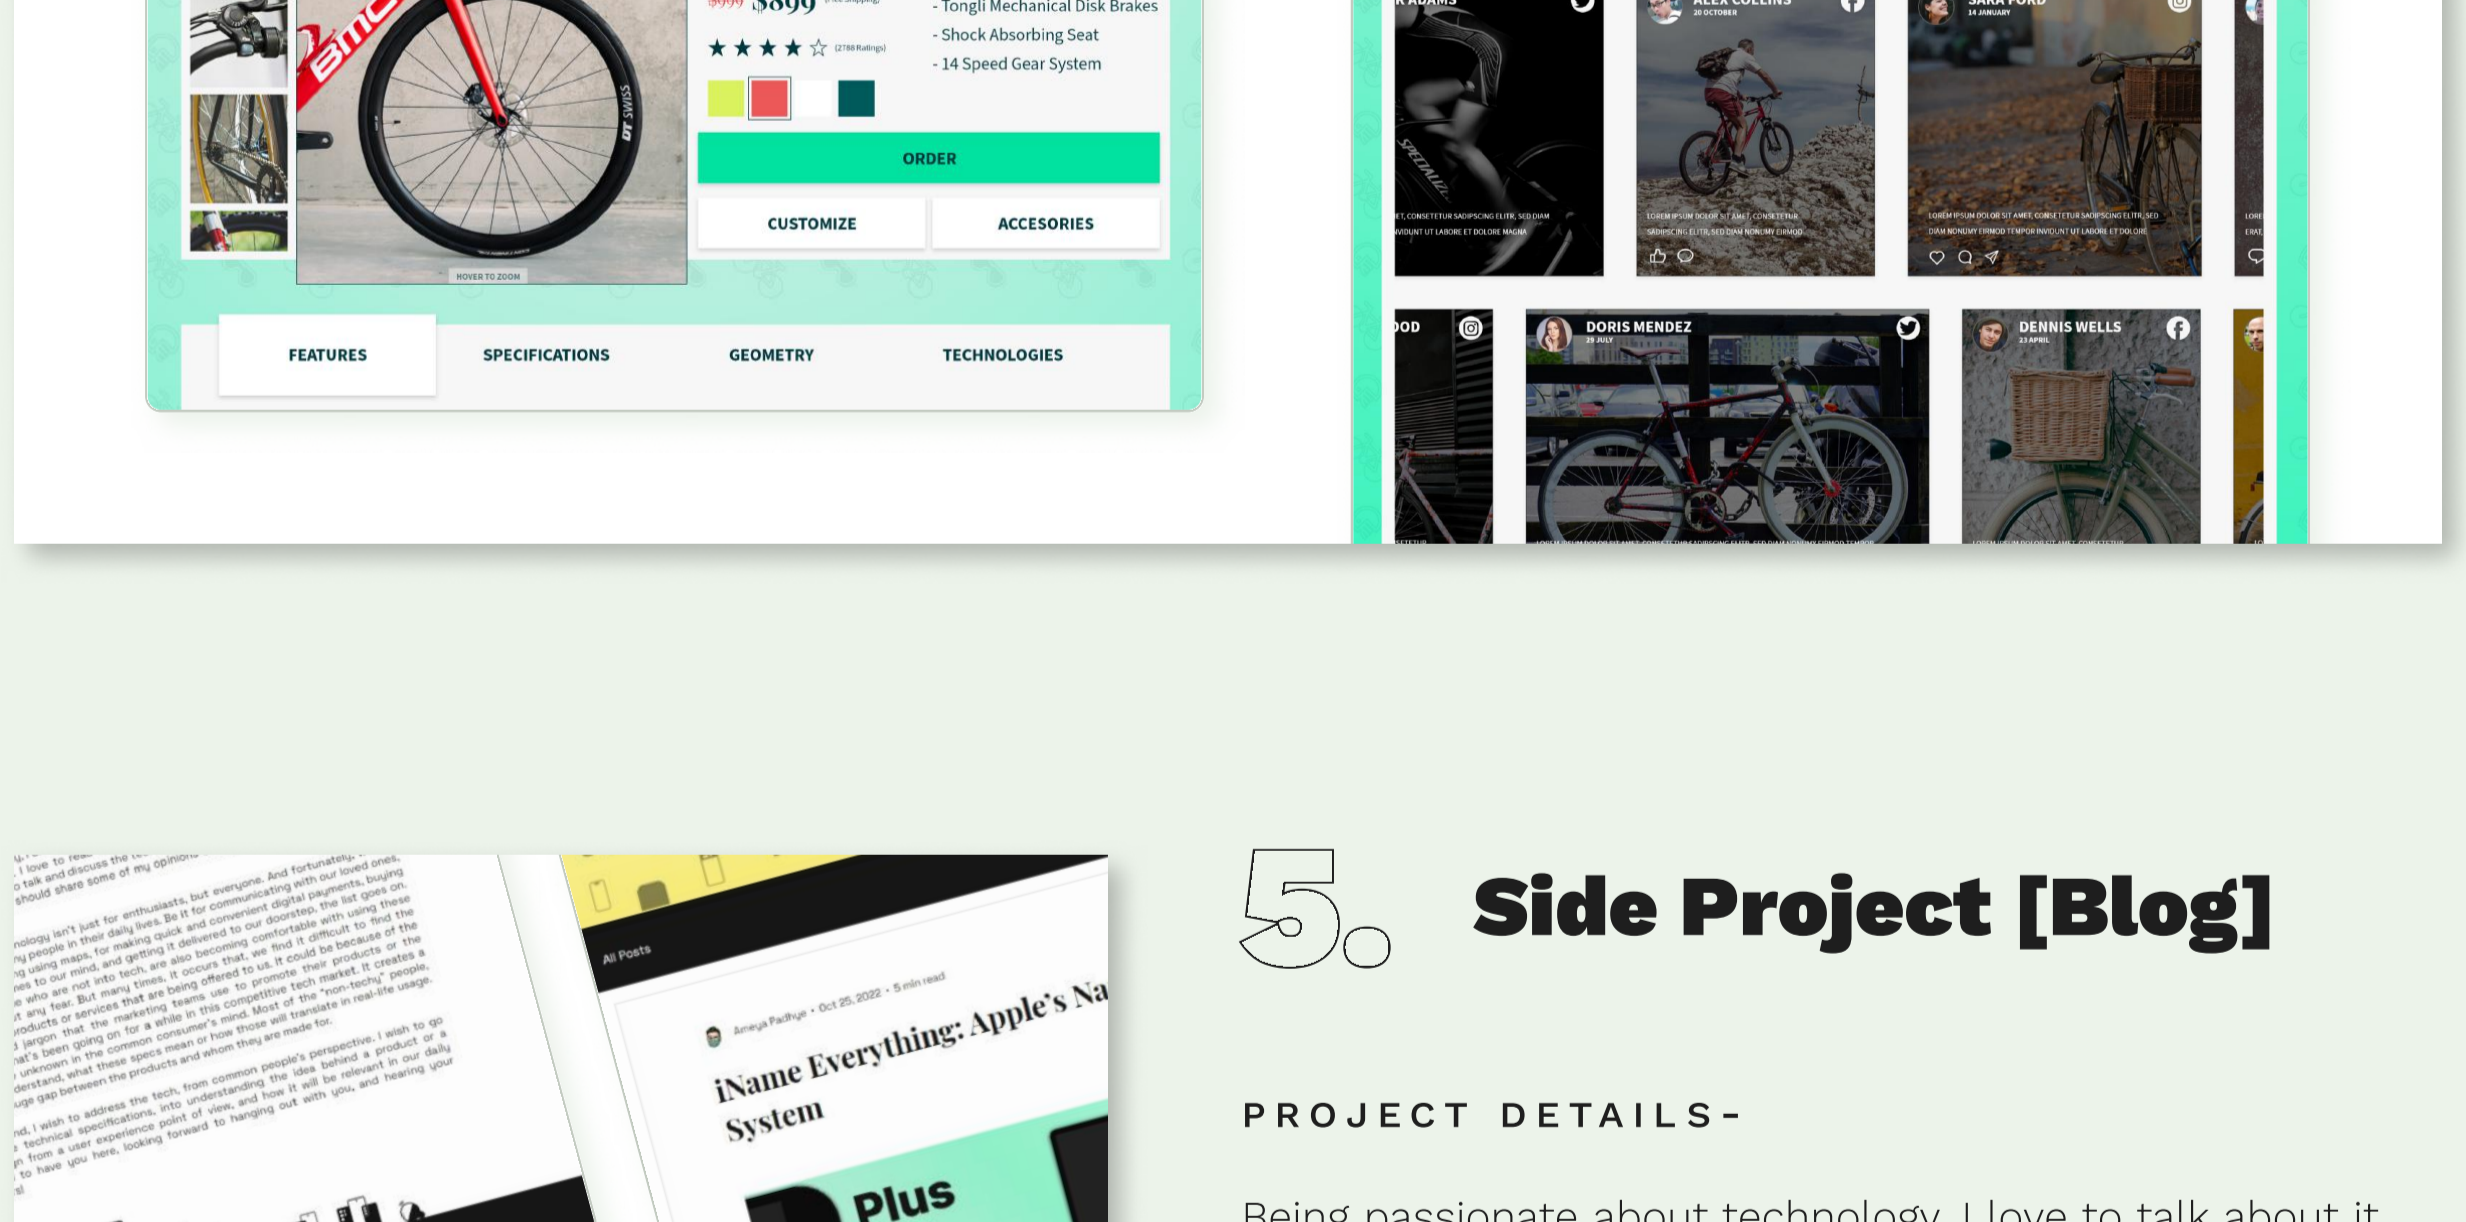

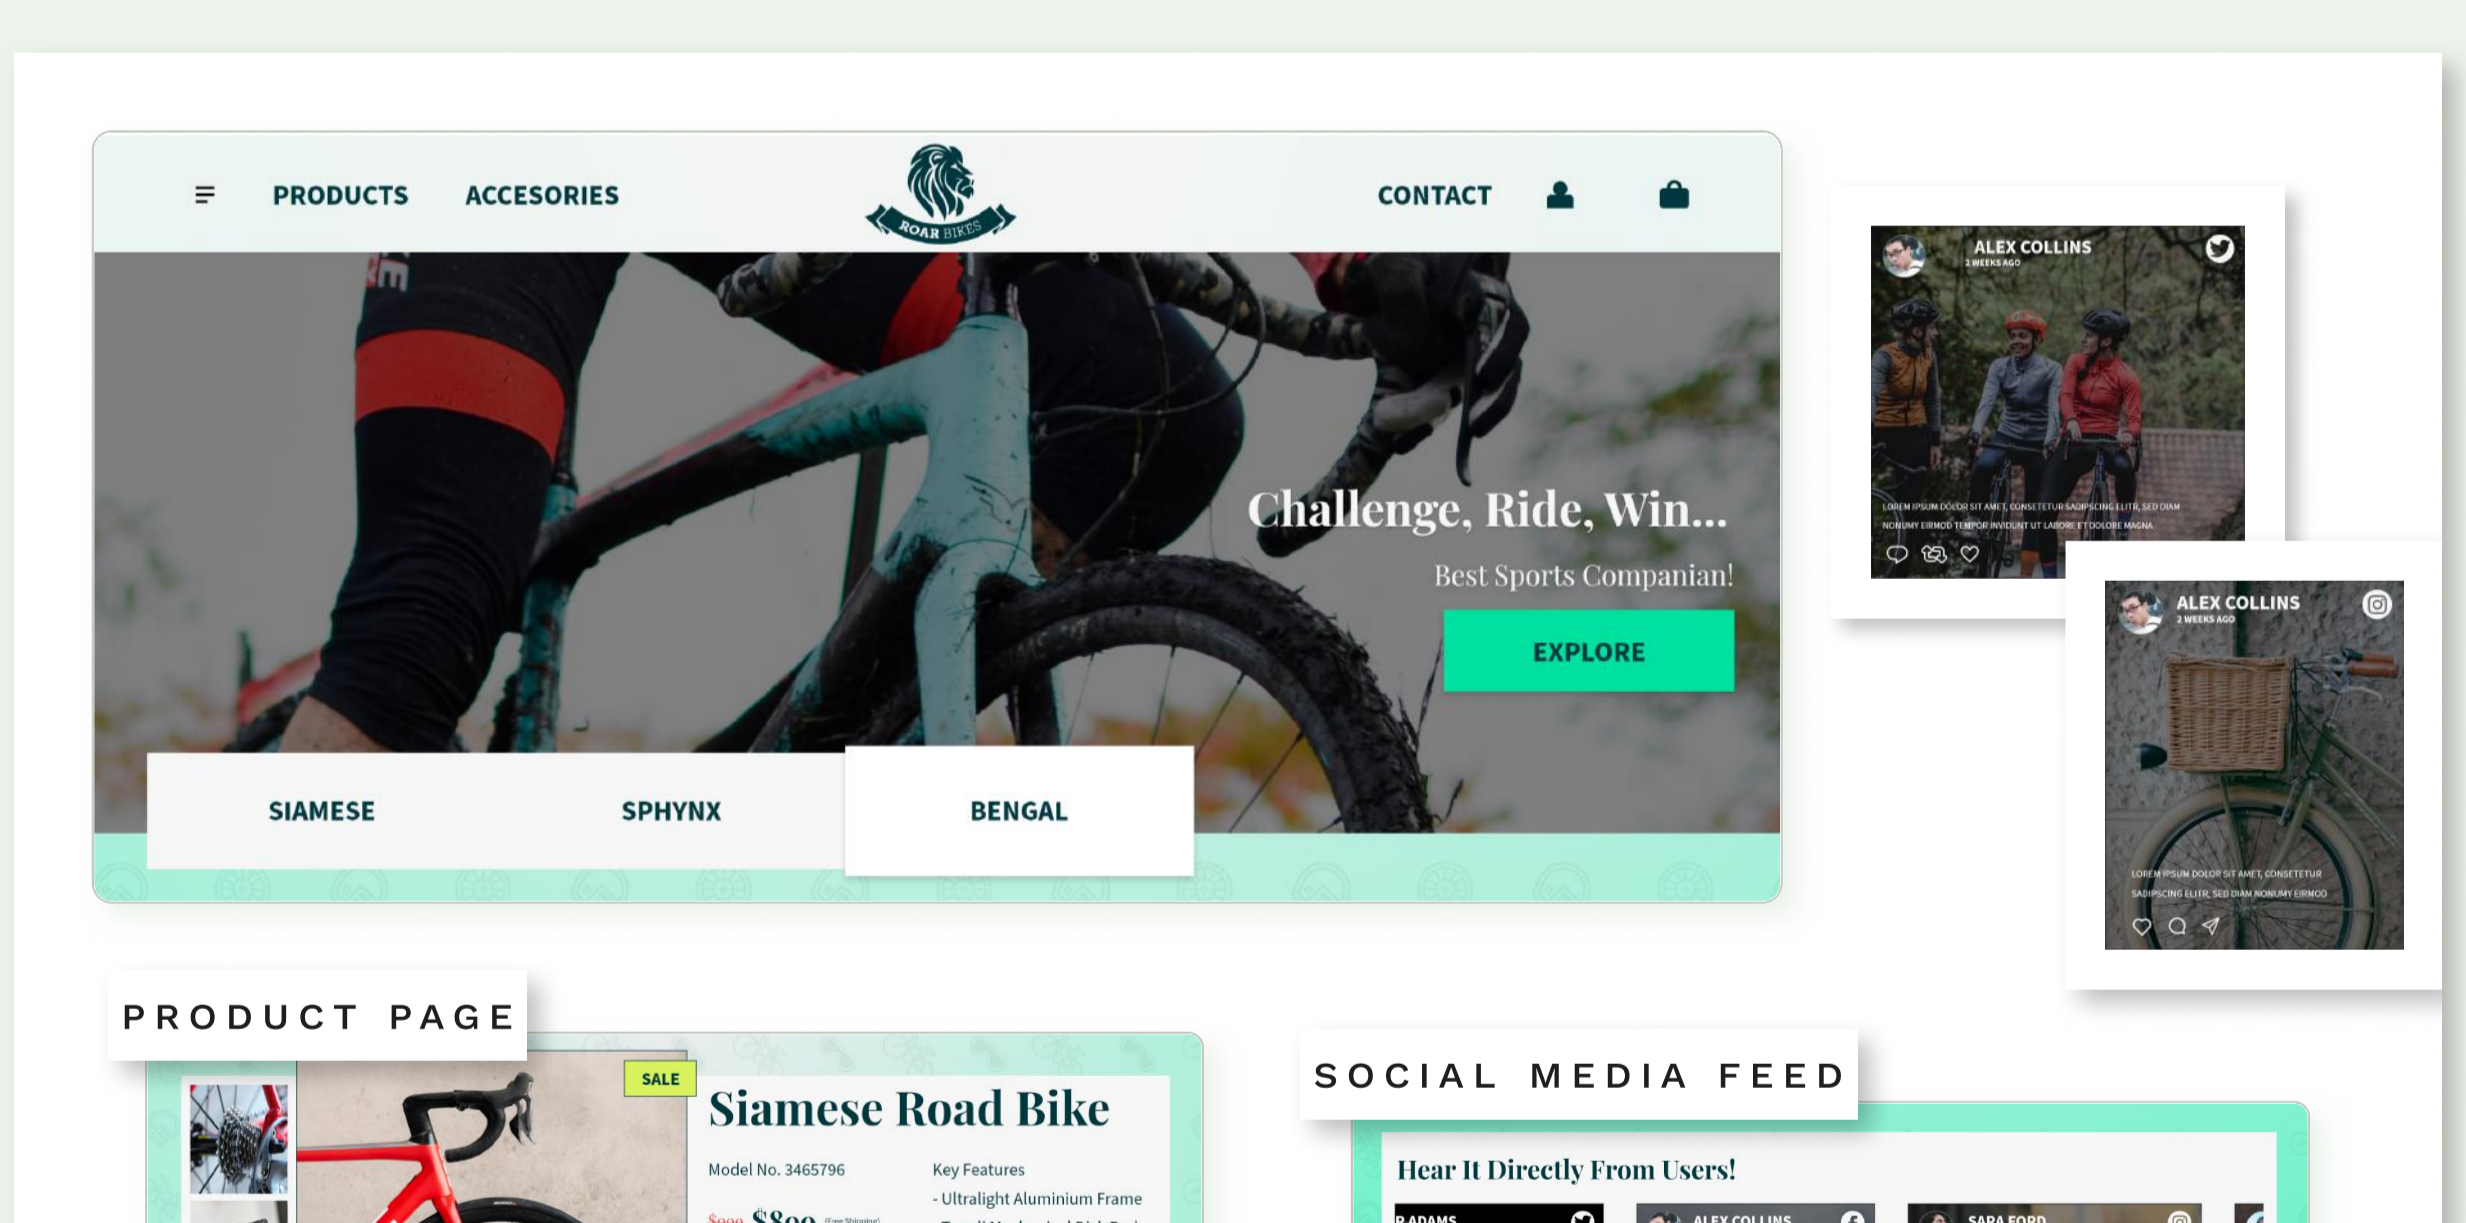

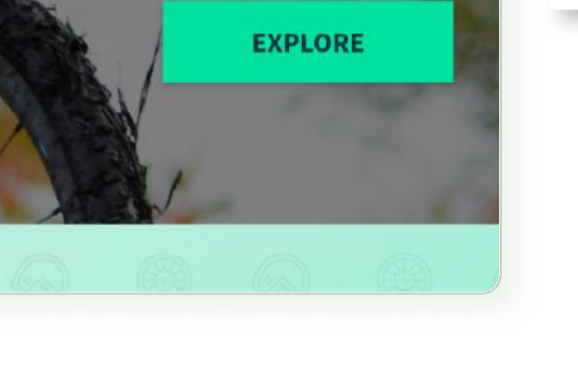

## 4. Roar Cycles

### PROJECT DETAILS -

Roar Bikes is a manufacturer of small run, contemporary bicycles sold exclusively through their own website. They need an e-commerce website for people to browse & purchase, which is unconventional, yet simple & easy to use.

Wireframing | UX Design | UI Design

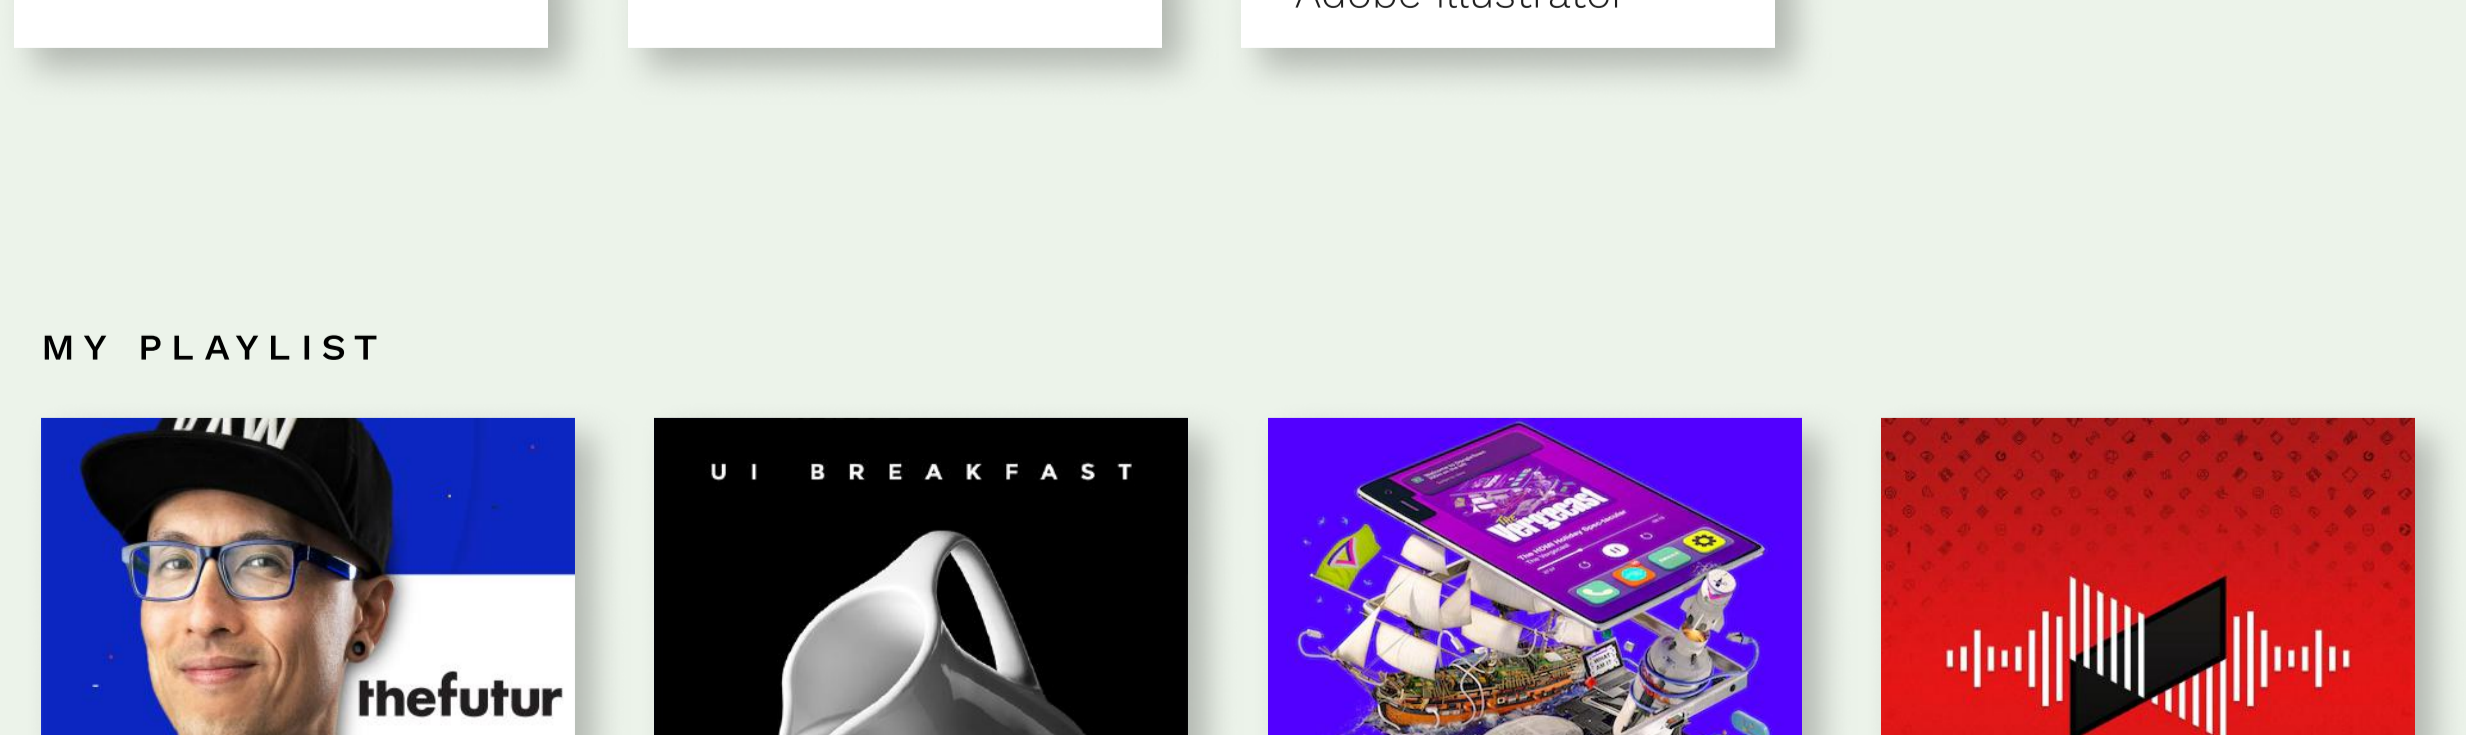

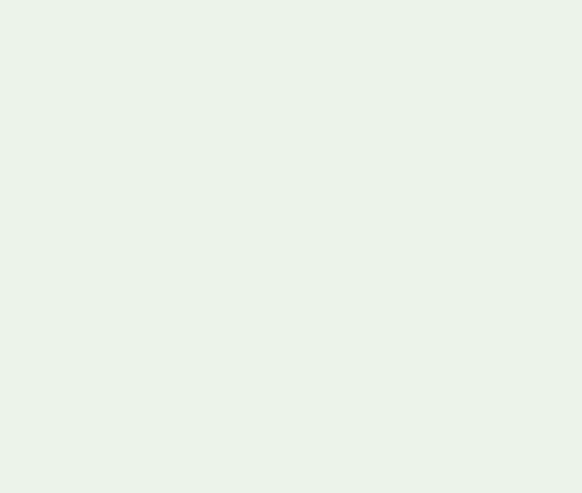

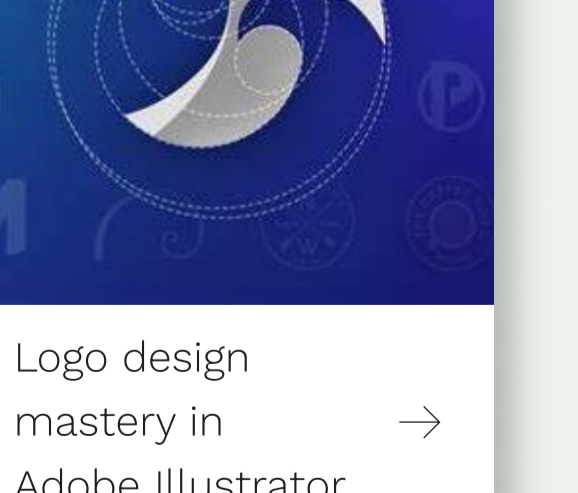

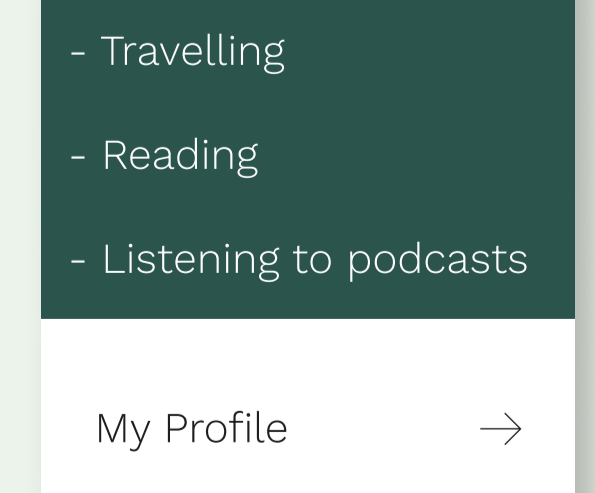

## 5. Side Project [Blog]

### PROJECT DETAILS -

Being passionate about technology, I love to talk about it. Hence I write a blog called "Tech Routine". If you're a tech nerd, first of all, hi-fi! Feel free to go through my blog and let's hang out :D Visit [www.techroutine.in](http://www.techroutine.in)

### ROLES -

UI Design | Logo Design | Illustrations | Icons Design
